PROJECTS

Touch Point Media **touchpoint.health**

- Integrated podcasts player from PodBean Podcast Network using custom fields.
- Followed PHPCS WordPress Coding Standards ([WPCS](#)) best practices in theme development.
- Optimized theme for optimal loading over [HTTP/2](#) connection.

San Antonio Legal Services Association **sa-lsa.org**

- Developed custom PHP Gutenberg blocks for UI components.
- Integrated Volunteer Hub API to display clinic opportunities to assist families in need of pro bono services.
- Configured Legal Server API with WP All Import to schedule data integration into a custom post type to display pro bono cases for layers with filtering UI.

WP Foundation Six **github.com/Blake-C/wp-foundation-six**

- Improved local WordPress development experience for a team of 6 developers.
- Removed instances of “well, it works on my machine” troubles with standard build system.
- Configured Docker to setup local PHP 7.3, NGINX, MariaDB, and PHPMyAdmin services.
- Integrated Gulp, Webpack, ESLint, Prettier, and PHPCS to maintain code quality and performance.

PROFESSIONAL EXPERIENCE

Web Developer — Gray Digital Group **January 2014 — Present**

- Communicated with Account Executives, Project Managers, and Designers to determine client requests and estimate time needed to research, design, develop, test, and launch projects.
- Trained clients in groups of 1-6 on how to use the admin UI for WordPress, Joomla, Drupal, and Sitefinity.
- Quality assured sites to track browser support, HTML validation, script errors, usability, and build quality.

Web Designer Developer — PPDG, Inc. **February 2012 – January 2013**

- Coordinated migration of all websites to new server, running latest PHP, MySQL, and Apache.
- Designed and programmed Employee Portal on Joomla 2.5 for 600+ field employees.
- Trained corporate office of 30+ employees on operation and business rules of Employee Portal.
